# Installation

---

System requirements for Telium Tools:

- Windows XP SP3
- Window 7 32-bit and 64-bit
- .NET Framework 3.5 SP1
- SAT 1.5

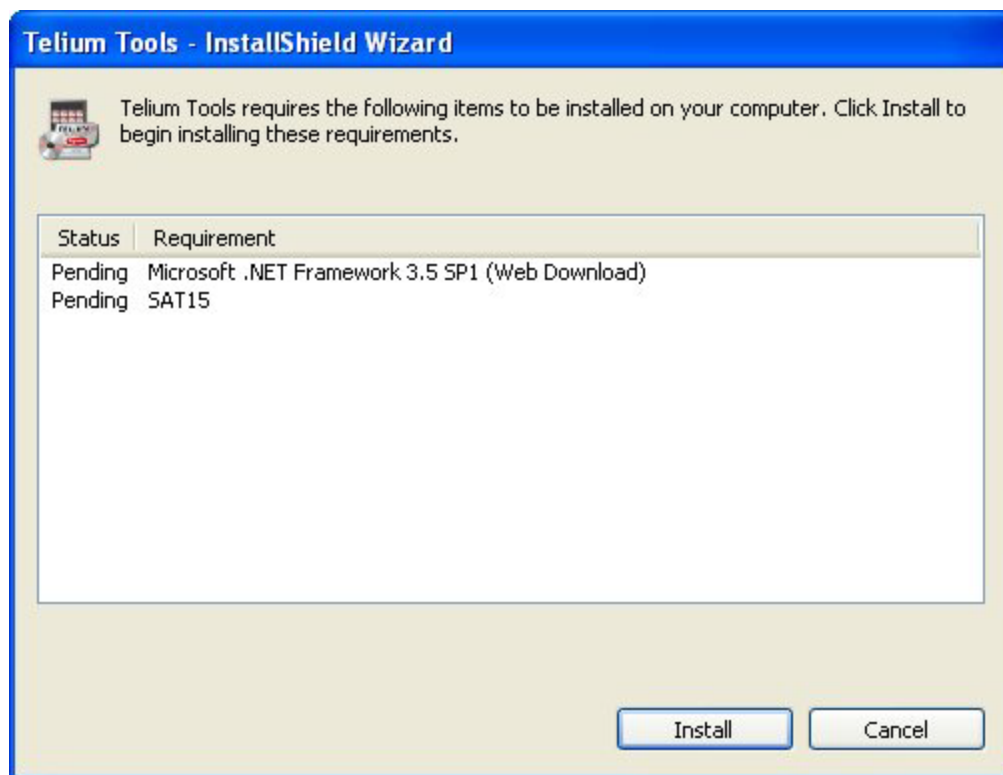

To install Telium Tools, run the file **Setup\_TeliumTools\_1.4.0.1.exe**.

## Installing Requirements

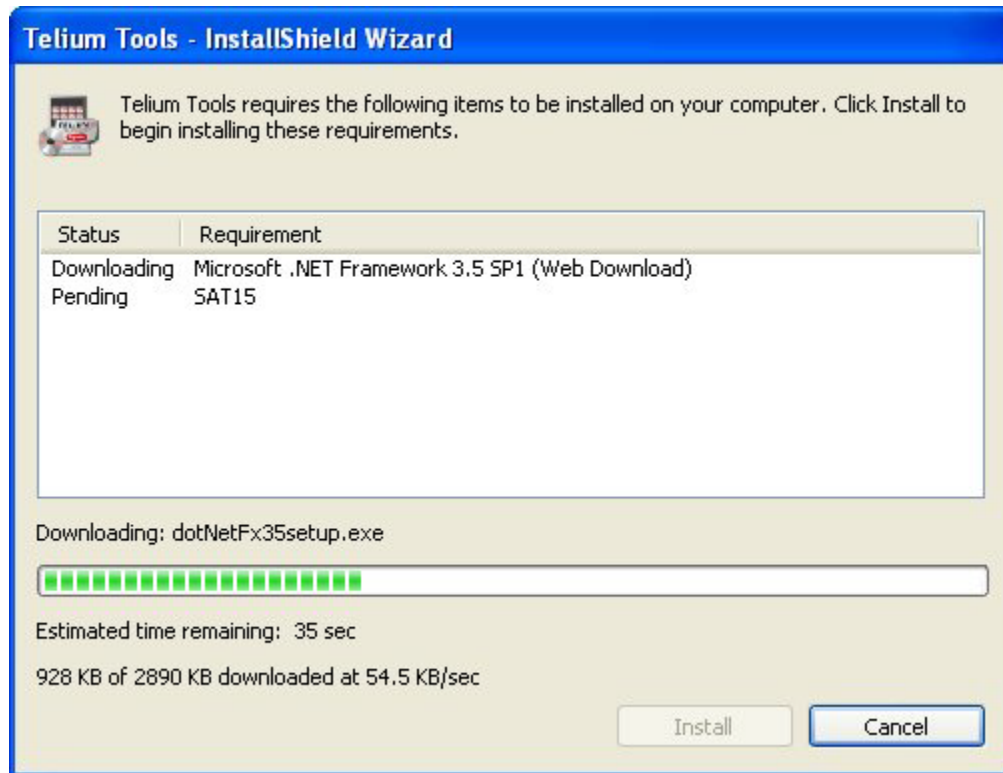

---

The Telium Tools installation file checks that the required software is installed on your PC. If either .NET Framework or SAT 1.5 have not been installed, the installation process begins by installing these required files. If these files are already installed, continue to [Installing Telium Tools](#).

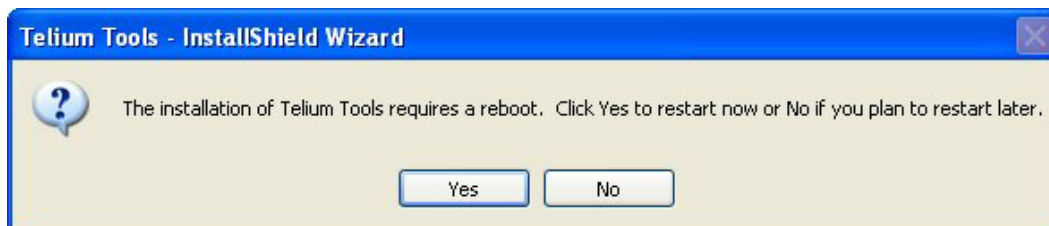

1. When you run the setup file, the following window displays:

2. Click **Install** to install the missing requirements. Wait while the requirements install:

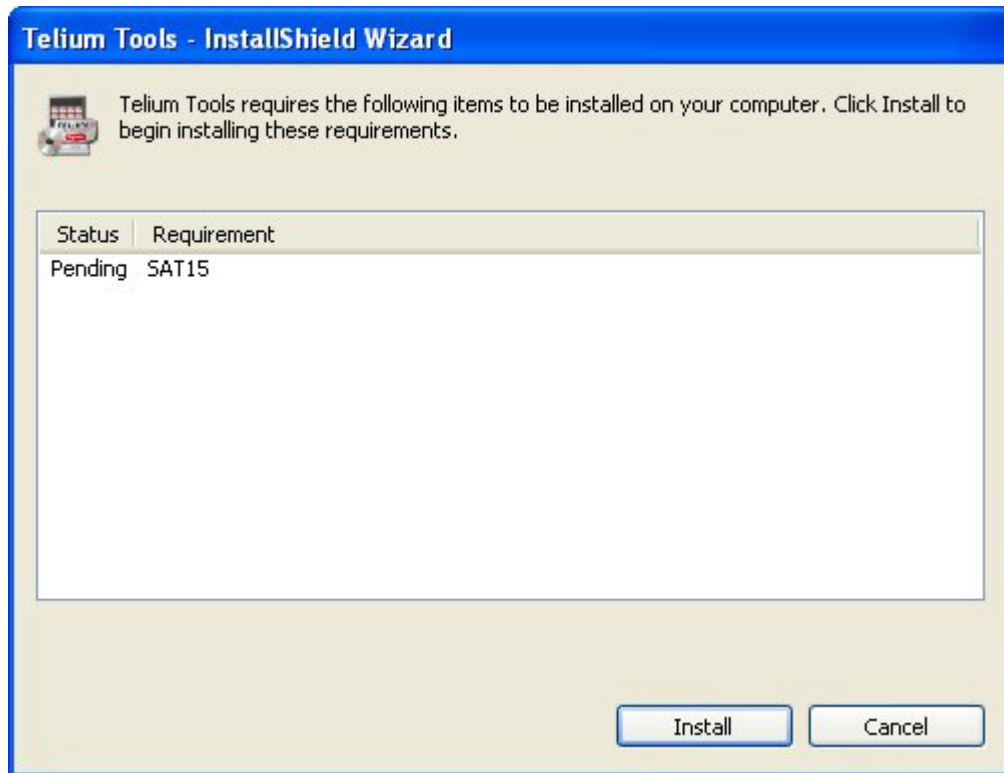

3. If the .NET Framework was installed, the installer prompts you to reboot the computer. The following window displays:

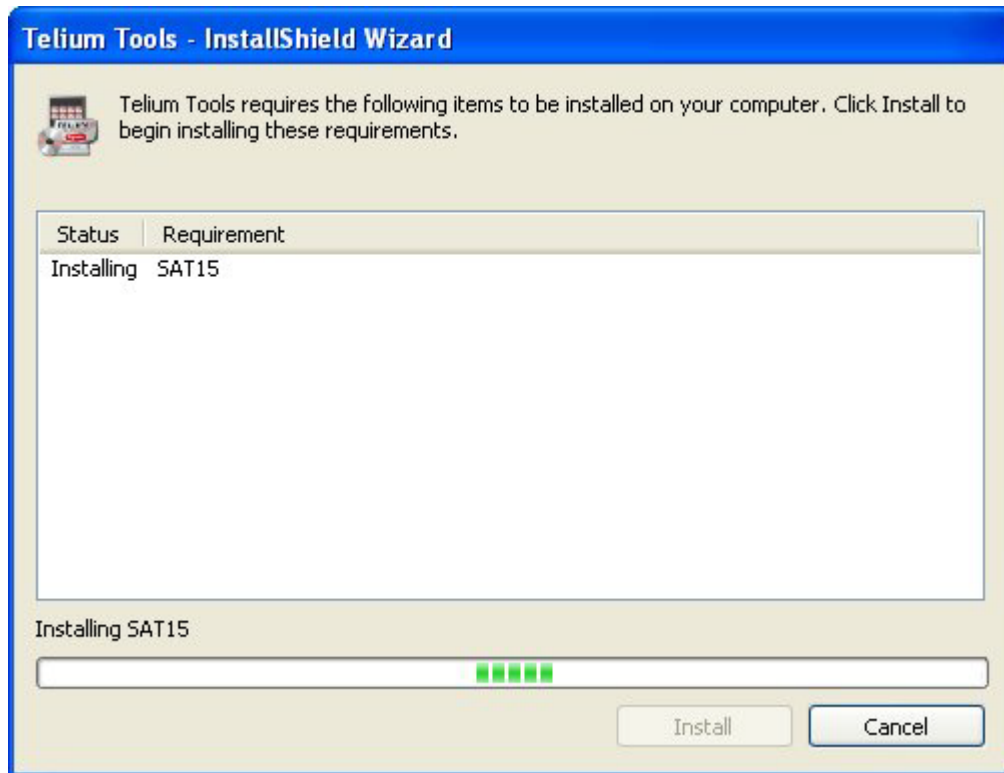

Click **Yes** to reboot the computer and resume the installation process. Click **No** to close the installer until you manually reboot the computer.

4. After your computer has been rebooted, the following window displays:

Click **Install** to install SAT 1.5.

5. The following window displays while the SAT installation is completed:

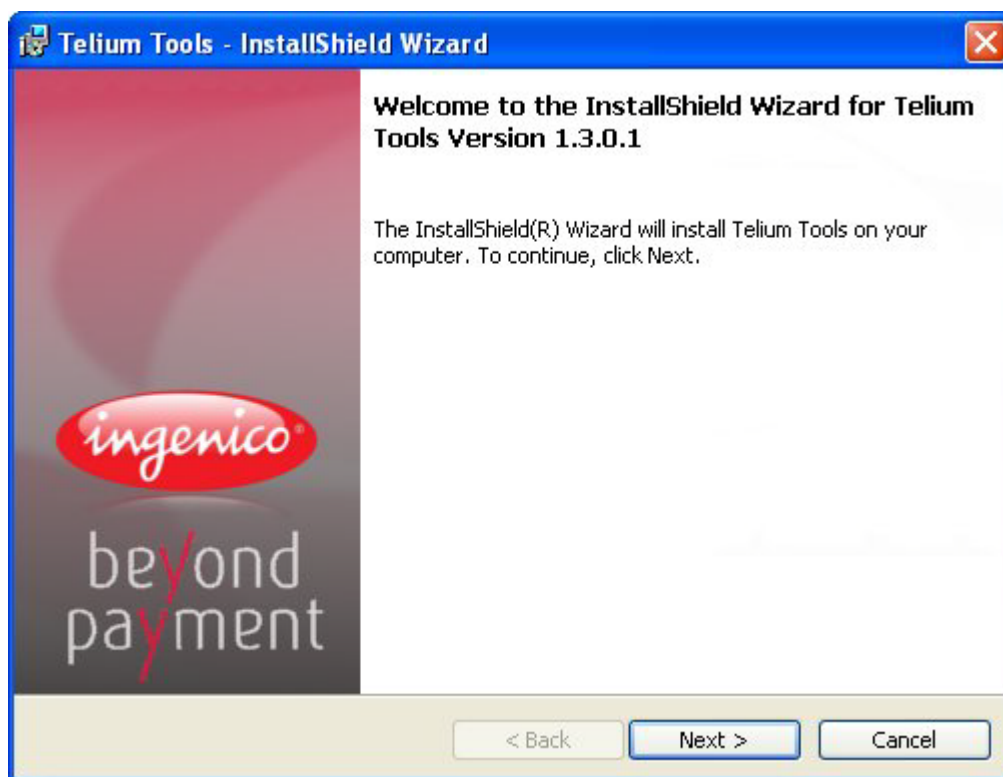

Continue to [Installing Telium Tools](#).

## Installing Telium Tools

---

6. After the required files are installed, the following window displays:

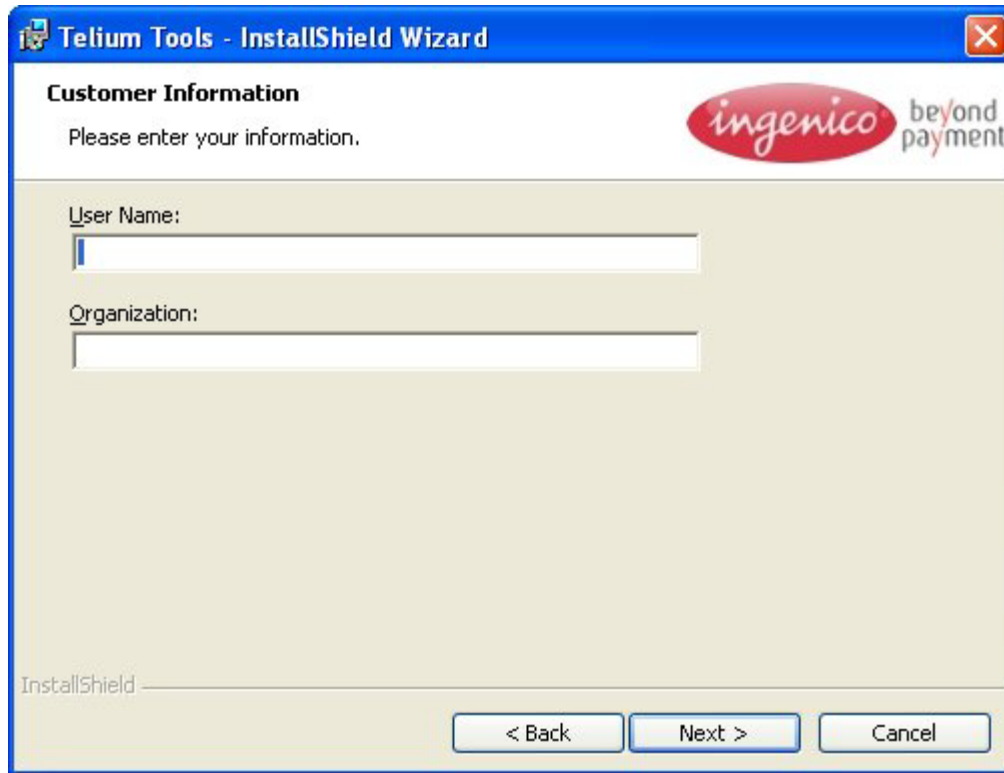

7. Click **Next**. The following window displays:

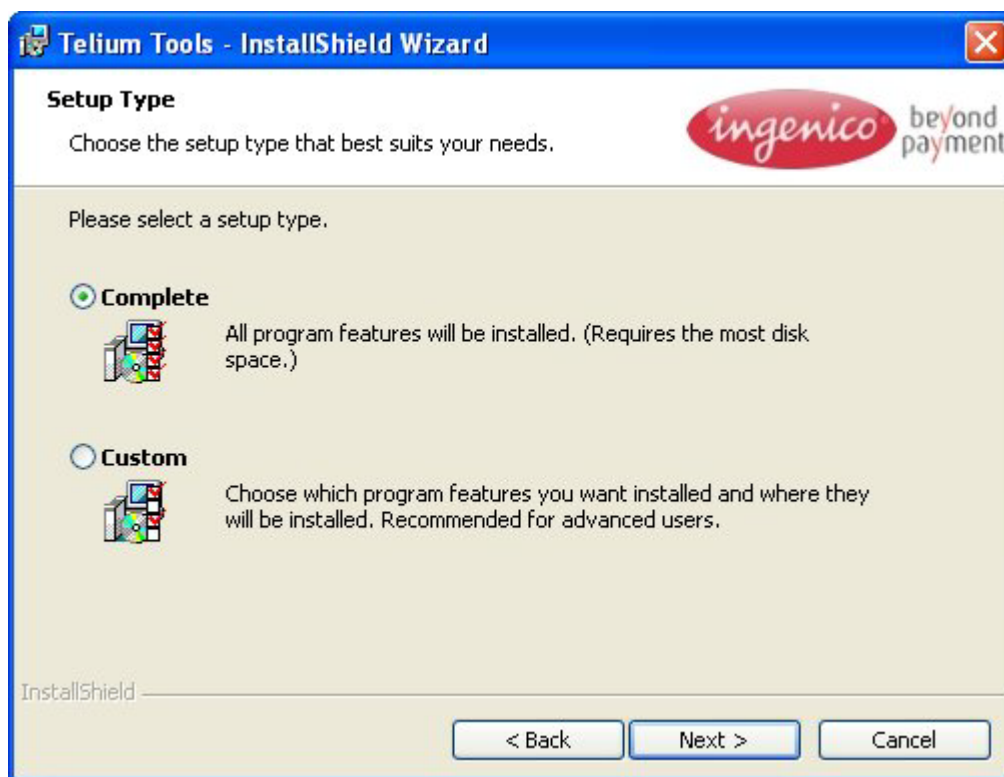

8. Once you have read the license agreement, select **I accept the terms in the license agreement** to accept the terms and continue installing Script Builder. The following window displays:

The image shows a Windows-style dialog box titled "Telium Tools - InstallShield Wizard". The window has a blue title bar with a close button (X) in the top right corner. The main content area is light beige. At the top left, it says "Customer Information" in bold. Below that, it says "Please enter your information." in a smaller font. In the top right corner of the main area, there is a red oval logo with the word "ingenico" in white, and the text "beyond payment" in a smaller, grey font. Below the text, there are two input fields. The first is labeled "User Name:" and the second is labeled "Organization:". Both fields are empty. At the bottom of the window, there is a status bar that says "InstallShield" on the left. On the right side of the status bar, there are three buttons: "< Back", "Next >", and "Cancel".

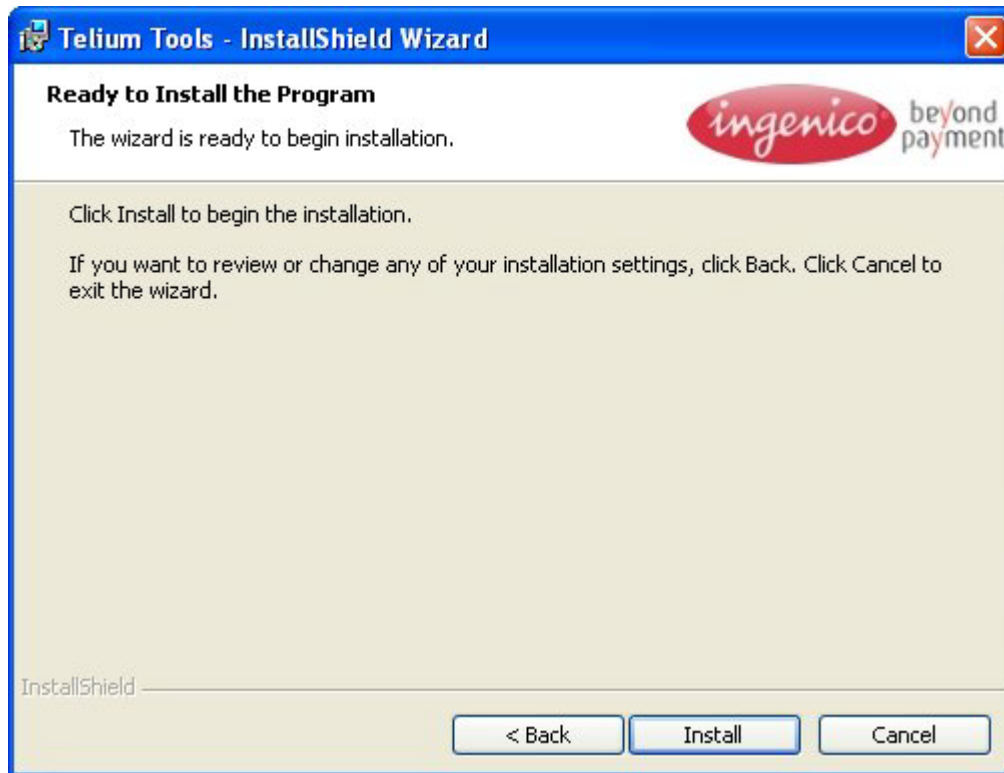

9. Enter your **User Name** and **Organization** and click **Next**. The following window displays:

10. Select **Complete** and click **Next**.

**Warning!** Do not perform a custom installation. The default installation directory is required for this release.

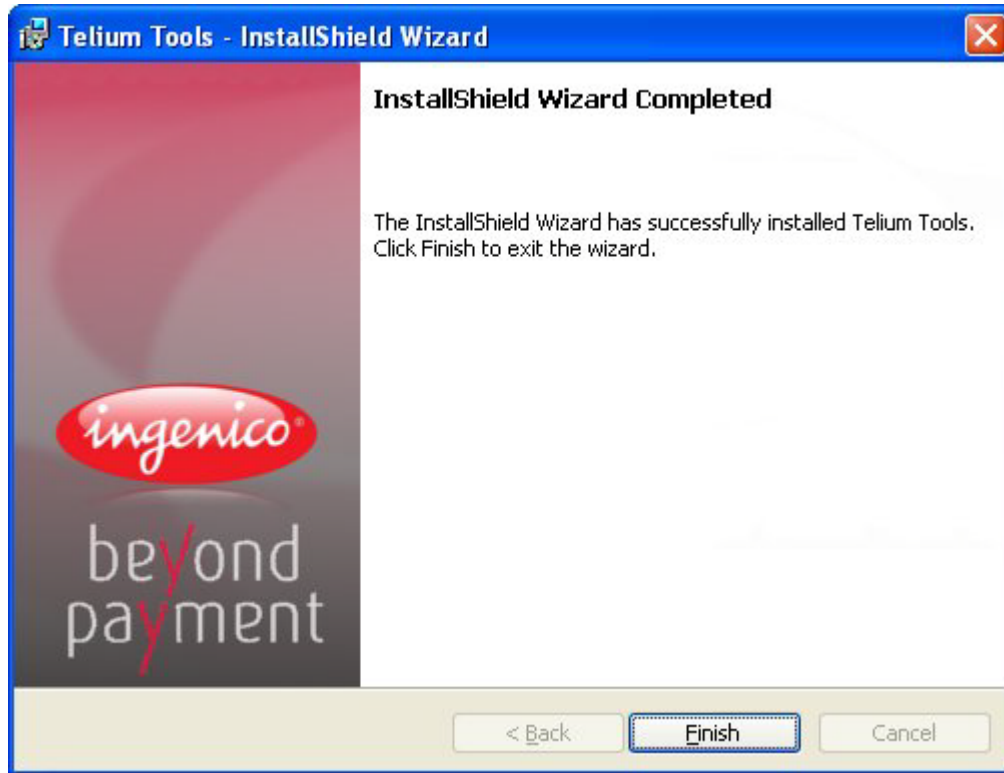

The following window displays:

11. Click **Install** to install Form Builder and Data Packaging Tool. The following window displays:

12. Wait while the applications install. The following window displays:

13. Click **Finish** to close the installer.
14. To launch the Telium Tools applications, go to **Start > All Programs > Ingenico > Telium Tools** and select the application to run.
