## General

No part of this document may be reproduced, distributed, performed, displayed, or used to prepare a derivative work without the prior and express written consent of Retail Technology Group (RTG). The software described in this document is furnished under a license agreement and may be used only in accordance with the terms and conditions of the license agreement. Information in this document is subject to change without notice, and Retail Technology Group assumes no responsibility for errors.

## Trademarks and Credits

AXIS, AXIS Retail Management System (AXIS RMS), AXIS Data Center, AXIS Register, and AXIS E4473 are trademarks of Retail Technology Group and shall not be used without the express written permission of Retail Technology Group.

Other trademarks, such as QuickBooks, are not being used as a trademark herein and are the property of the respective owners.

## Legal Counsel

This program, printed documentation, and documents should not be used as a substitute for professional advice in specific situations. The procedures, images, and examples in this document are for illustrative purposes only and may not be applicable in your setting due to differences in preference, settings, and/or state and local regulations.

The following notice is required by law:

**Retail Technology Group products and services are not a substitute for the advice of an Attorney.**

**You are encouraged to seek the advice of your own attorney concerning the use and legality of this program, documentation, and forms.**

# Overview

---

The RTG® Retail Technology Group (RTG) provides this document as a high-level summary of the latest release of the RTG AXIS software system.

# Gearfire Integration

---

Starting with AXIS Version 2.22, the AXIS RMS can now be integrated with web services offered from Gearfire. This will allow for the following:

- Sync AXIS inventory with your online Gearfire website.
- Process orders from Gearfire in AXIS, using the Sales Orders functionality.
- Allows for customers the ability to choose In-Store Pickup as an option when placing orders online.
- New product picking functionality is available for Sales Orders generated from Gearfire.

For more information on the Gearfire integration, please send inquiries to [contact@rtgholdings.com](mailto:contact@rtgholdings.com).

# User Security Permission Updates

---

The following employee security permissions have been updated:

**ReceivingAddDetail** – New security permission available. When selected, this option will allow an employee to search and add additional products to purchase orders from the receiving screen.

**IMUpdate** – Employees that do not have this permission selected will no longer be able to add or update product information in Inventory Management.

**IMCost** – Employees that do not have this permission selected will no longer be able to view Cost or Gross Profit information within the Inventory Management or Firearm tabs in the AXIS Datacenter.

## Updating Employee Security Permissions

You may utilize the following steps to update employee permissions:

1. Open and Login to the AXIS Datacenter
2. Click **Employee**
3. Click **Select Employee**
4. Double-click on an employee to edit
5. Click **Security Information**
6. Select or deselect the appropriate security permissions in the left-hand sidebar
7. Click **Submit**

# Improvements & Fixes

---

## Employee Commission Improvements

- The Employee Information screen has been updated with an option for Commission Groups; allowing you to place a new or existing employee into a commission group without needing to visit the Commission Setup screen.
- The Commission Setup screen now allows for multiple Descriptor selections for adding products to a commission group.
- A new column for Group Name has been added to the Commission Sales Report.

## Special Orders Improvements

- All Special Order items now have the ability to link with customer names on the Receiving screen. This will include Firearms as well as Non-Firearm items.
- Fixed authentication error when sending Special Order email template.

## Inventory Level Screen

- The ability to directly modify the Min and Max values from the grid view has been re-enabled.

## Other

- Miscellaneous bug fixes and system improvements.
